## Cold Steel Drives Germans Back SECOND ATTEMPT TO BLAST WAY TO SEA KAISER ALTERS TACTICS

**Area Held by Germans On Right Now Occupied Only by Dead and Dying**

**Inundation of Battle Ground Has Made Vicinity Untenable for Troops—Hundreds of Teutons Left Behind in Retreat Must Die—Russian Fortified Seaport Bombed.**

London, Nov. 6.—(1.33 p.m.)—What has now become another well defined stage of the battle in east Prussia, that is to say, a second concerted attempt of the German army to blast its way through to the sea, was flaming and roaring from Neuport to the French frontier today without definite result so far on either side.

The area near the coast formerly held by the extreme German right and from which the invaders were forced by the allies after many days of hard fighting, is held only by dead, dying and wounded, the inundation having made the vicinity uninhabitable for the living and having prevented an advance of the British, French and Belgian allies.

Hundreds of Germans left behind in the retreat doubtless will perish, as many were mangled. Hundreds of both sides are yet to perish in the struggle which is yet to come, which is to decide whether the Germans are to reach the French coast this winter. An official despatch from the British army headquarters at the front today, pays tribute to the way the invaders are meeting with death and spectacle as heretofore whether this is due to patriotism or to ironical discipline.

Only a vague picture can be formed up to the present as to what is happening on the Russo-Turkish frontier or in Egypt. Experience has shown that both sides will for days claim the first victories as their respective troops clash near the borders. Through German sources emanate the report that the Turks have "successfully" the Russian fortified seaport of Batum on the Black Sea.

German trench, at Melle, near Ghent, protected by tons of iron wire coils. The effect is to deaden the shell fire, as the force of the bursting shell is deadened and the trunks are kept from flying.

New Offensive Positions Secured to Mitigate Bloody Repulses.

**TEUTON WAGON COLUMN IS DESTROYED BY ARTILLERY**

**Russia Announces Officially Great Muscovite Victory in Galicia.**

Paris, Nov. 6. (2.50 p.m.)—The French official statement given out in Paris this afternoon says yesterday passed without any perceptible modification on the front. The fighting between Dixmude and the Yser continued without any marked advance or retirement.

The text of the communication follows: "There was no perceptible modification during the day of yesterday anywhere on the front. The fighting continued between Dixmude and the Yser, with the same characteristics as previously and without any marked advance or retirement at any point. There was violent cannonading to the north of Arras and also directed upon Arras without result for the enemy."

"Mitigate Blood Checks"

"The German effort in Belgium and in the north of France continues. The Germans seem to have undertaken changes in the position of their forces, which are operating in this region and are reinforcing their reserve corps with active troops, with the idea of undertaking a new offensive movement or at least to mitigate the bloody checks which have been inflicted upon them."

"Between the Somme and the Yser and between the Oise and the Meuse there have been minor attacks. We have consolidated our advance on the village of Andelot, to the west of Hays. A column of German wagons has been destroyed by the fire of our artillery at long range in the region of Namptel, to the north of the forest of Anquet."

**French Attacks Repulsed**

"Near Betty-Au-Bac we have retaken the village of Sappignen which had been captured by the Germans. There have been a few minor attacks in the Argonne where as a result of fighting with the bayonet our troops drove the Germans back."

"In the Woerthe district fresh attacks by the enemy have been repulsed."

"To the northeast and the east of Grande Couronne, Nancy, (the chain of fortified positions surrounding the town) the German detachments of the enemy whose movements everywhere were checked."

"Russia announced officially a great Russian victory in Galicia."

**CHIEF TURK MOGUL CALLS MUSSELMEN TO FIGHT RUSSIA**

Hard Fighting in Northwest as Has Yet Had No Decisive Result.

Berlin, Nov. 6.—According to information given out in official quarters today, the press of the Reich, the chief ecclesiastical dignity of Mohammedanism in Turkey, has issued a decree in Constantinople saying that in the fighting with Russia, England and France, the duty of every Mohammedan is to his faith. The decree has been spread throughout the Mohammedan world and announced to the villages and towns. It was given out officially to the press today says that hard fighting in the northwest continues but that it is as yet without result. The Germans have, however, been able to make slow advances at several points from Ypres inland.

The clash in Poland which has been expected for several days has not yet developed. On reason is that the condition of the roads make rapid movements impossible. The result is now making some improvement in this regard.

**GERMAN RETREAT IS NOTHING LESS THAN A BAD ROUT**

Correspondent in Northern France Says Teuton Right Smashed to Pieces.

**FLOODING OF POSITIONS A CLIMAX TO DISASTER**

Says Not a Single Gun Belonging to the Kaiser is Left South of Yser.

London, Nov. 6.—The correspondent of the Daily Mail in the north of France describes the relief in Dunkirk, Calais and the neighboring towns and villages at the retreat of the Germans which, he declares, amounts to nothing less than a rout. He says: "The German right is smashed like a fallen wine glass. Guns, stores, rifles and even the wounded are abandoned in the rush from this battlefield. The chance of the Germans was that a remnant of the German force which met its fate at the Yser. Thirty thousand Germans, say the Belgians, have been put out of the fight in this line. Not a single gun remains on this side of the river and the unburied dead, the drowned and the mangled, with the memory of all the trains of wounded that left the firing line in recent days lead one to think that there is no certifying of the enemy's loss. There must be many thousands of prisoners."

**BELGIAN OFFICIAL REPORT STATES NO ATTACKS AT YSER**

Several detachments of Enemy Still Occupy Left Bank Near St. George

Hays, Nov. 6.—The Belgian official communication given out here today says: "The enemy is showing no activity on the Yser front but several detachments with quick firing guns still occupy the left bank of the Yser near St. George and St. Julien."

"The Germans have placed numerous mines, including all calibers, on the Belgian frontier between Middelkerke and Zeebrugge."

"On the Dixmude-Rixmude front the Anglo-French offensive movement continues. Violent German attacks in the direction of Rixmude have been repulsed."

"Between Wytschaete and Messines the offensive movement of the allies has progressed as far as the road joining these two towns."

**Turks Bombard Batum**

Amsterdam, Nov. 6.—The Vossische Zeitung has published a despatch from Sofia, Bulgaria, saying that the Turkish cruisers have successfully bombarded the Russian fortified seaport of Batum, on the east shore of the Black Sea.

**SAID TURKS SIEGE BRITISH SHIPS NEAR TOWN SMYRNA**

London, Nov. 6.—The Exchange Telegraph company has given out a despatch from its Liverpool correspondent saying that the Turkish fleet seized the British steamers Anslout and City of Khers, at Smyrna.

**BUGHOUSE WILLIAM HAS CLOSE ESCAPE AIRMAN'S BOMB**

Missile Dropped From Skies Finds Repose in War Lord's Bedroom.

**DESPOT MONARCH HAD LEFT HIS APARTMENT**

Two of His Aides are Killed and Automobile Standing Near Wrecked.

London, Nov. 6.—A correspondent in northern France gives further details of Emperor William's escape from the British bombardment.

"For five days," says the correspondent, "Emperor William was present at the operations on Neuport-Ypres line. Last Sunday morning, the emperor and his aides arrived by motor car at Thiel, where apartments had been reserved for him at the hotel, and where dinner was waiting."

"The emperor's personal baggage, all the baggage of his aides, and the baggage of the hotel in which he was to spend the night. The emperor in his hurry did not dress, but he hurriedly left the room, hurriedly left the room with his aides and motor car, and hurriedly left the room where other rooms were engaged."

"Twenty minutes later six bombs fell on the hotel and the emperor's baggage and his room was completely destroyed. Two of the aides who had returned at the hotel were killed and their motor car which was waiting in the yard was wrecked."

**EXCURSION LEAVES FOR VIKING 1 P.M.**

Special Train Over G.T.P. to Be Run by Industrial Association Saturday.

**LIKELY SEE WELL IGNITED**

Viking Board of Trade Making Arrangements to Look After Crowd.

Arrangements have been completed by the Board of Trade for a special train to visit the Viking gas well tomorrow. A special will leave the Grand Trunk depot at 1 p.m. sharp, arriving in Viking at 3.30.

"The Viking board of trade has undertaken to supply the necessary conveniences from the depot to the well, a drive of five miles, and also to provide dinner for the Edmonton visitors at the well. This is being done by the Viking people in appreciation of the efforts of the industrial association."

A special return rate of \$2.50 has been secured through the courtesy of the Grand Trunk Pacific railway, and this amount should cover the entire expenses of the trip. It is about 8 o'clock when the train will start and start on the return trip about 8 o'clock in the evening, reaching Edmonton at 11 o'clock.

W. R. Martin, president of the International Supply company, left this morning for the well and states that the heavy equipment necessary for the capping of the enormous flow, went by express on the train. He states that it will take 24 hours to properly cap the well so that by noon tomorrow it should be under perfect control. If that is the case, the visitors will be able to see the well in open flow. Both rock pressure and volume tests can be made in view of all the necessary instruments being already there. So soon as it is known that the gas will be piped from the derrick some distance and lighted.

The Newbros' band will be at the depot as the train leaves and a proper reception will be given the party at Viking upon its arrival.

As the transportation facilities from Viking to the well are somewhat limited, it is absolutely necessary that the Viking board of trade be advised of the exact number that will be aboard the train, consequently all who wish to make the trip are advised to immediately call at the office of the industrial association, third floor of the Purvis block, and buy their tickets as, so soon as the limit is reached, no more tickets will be sold.

Representatives of the provincial government, all of the city council, city commissioners and heads of departments, the board of trade, the representative business men of the city and especially all who have invested money in the gas are most cordially invited, many of them have already registered.

**BRITISH BATTLESHIP HIT BY SHEDD DAMAGED**

Constantinople, Nov. 6.—According to a Constantinian official announcement one of the British warships bombarded the Gallipoli was struck by a shot from a steamer it is also stated has been sunk off Akko, Asia Minor, after the crew and cargo had been put ashore.

**Earl of Dalhousie Wounded**

London, Nov. 6.—It is announced that the Earl of Dalhousie has been wounded in the fighting on the continent. He is a lieutenant in the reserve of officers and prior to the recent war saw service in South Africa in 1901-2. At that time he was subaltern. He is 37 years old.

**THEATRICAL STAR TO AUCTION GOODS EMPIRE THEATER**

Miss Dentler, of Peg 'o My Heart, Promises to Help Belgian Relief Fund.

A novel and unique scheme for the raising of funds to aid in the relief of suffering Belgians, has been evolved by those in charge of the collecting of funds in the city. On Saturday night at the Empire theater, Miss "Peggy" Dentler, better known as "Peg 'o My Heart" and the leading lady in the offering by that name, will, after the last act of the piece has been completed, auction a large number of valuable goods which have been secured by those working on the scheme. Miss Dentler will take her place on the stage after the last act and demonstrate auctioneering as it should be done. Goods will be sold to the highest bidder and it is hoped that in this way a substantial sum of money will be secured for the Belgian relief fund. Also during this auction, the other young ladies members of the "Peg 'o My Heart" troupe will pass down the aisles of the theater taking a collection for the same fund. Altogether a lively time is anticipated as numerous prominent men about the city have signified their intention of being on hand to secure some of the valuables to be offered at auction by the pretty theatrical miss and money will not be allowed to stand in the way of securing the coveted articles.

It is also announced that for the benefit of those who are employed in stores and elsewhere "on Saturday night and are unable to attend the theater for the entire performance, they will be permitted to secure tickets free for the last act, by presenting themselves at the door. In this way, it is hoped to give everyone an opportunity to see at least a portion of the play and also to be present at the unique auction that will be held in aid of the Belgian sufferers.

**MUSCOVITES CLAIM GREATEST VICTORY SINCE WAR STARTED**

Paris, Nov. 6.—Grand Duke Nicolas, commander-in-chief of the Russian forces in the field, has sent a telegram to General Joffre, commander-in-chief of the French forces, saying that the Russians have gained in the last Prussia, the greatest victory since the beginning of the war.

**HEAVY FIRING OFF DOVER NAVAL FIGHT MAY BE IN PROGRESS**

Dover, Eng., Nov. 6.—Heavy firing was heard off Dover this morning. It could not be ascertained whether the artillery changes were on the Belgian coast or indicated a naval engagement in the North sea.

**NOVEL COLLECTION OF BELGIAN FUND**

Ponies and Dogs Will Gather Relief Subscriptions to Alleviate Sufferings.

At a meeting held in the board of trade rooms yesterday afternoon arrangements were made for the inauguration of a Belgian Relief collection in which there will be some unique features. When the matter came before the council of the board it was estimated by those present that the city having been so thoroughly canvassed in behalf of the patriotic fund and the Welfare League it would scarcely be possible to secure any adequate results in behalf of the harried Belgians through the usual methods of canvass, and as a consequence something novel in the method of gathering subscriptions will be introduced tomorrow morning when children will lead about the city Belgian ponies and dogs such as are used in Belgium for loads of burden bearing contribution boxes in which will be gathered funds for Belgian relief. Besides this method of canvass, boxes will be placed in prominent places all over the city where, for the next two or three weeks those who feel that the Belgians are entitled to some material demonstration of their sympathy may drop a coin.

The funds thus collected will be used for the purchase of Made-in-Edmonton food which the C.P.R. has undertaken to forward free, through the proper channels, to the starving women and children in Belgium. Principle among the items will be goods which are characteristically Edmon-ton and which, when sold, will be the most necessary: flour, bacon, rolled oats, biscuits, etc. The committee of the board of trade having the matter in hand, consisting of W. R. Jennings, H. H. Cooper, J. A. Ramsey, S. H. Smith, A. K. Henderson and T. M. Turnbull, are taking it upon themselves to order upon their own responsibility the first carload which will be forwarded at once, the urgency of the necessity being fully recognized. It is not too much to say that it is a real relief.

**IMPORTANT POINT RETAKEN FROM FOE BY BRAVE TURCOS**

Village of Ramsappelle, Now Held by Allies, Changes Hands Three Times.

Paris, Nov. 6.—In a despatch dated at Fumes, west Flanders, Belgium, a correspondent of the Petit Parisien says:

"Ging Albert came here personally to congratulate the regiment of Turcos who retaken the village of Ramsappelle last week from the Germans. Ramsappelle was of vital importance. It opened the way to Fumes and its possession by the Germans might be of disastrous consequences."

"Overwhelmed by numbers, the Belgians holding it had been forced to fall back and it had to be recaptured at all costs. The French infantry attacked the town from two sides and at first were successful but the enemy recaptured it. Three times the Turcos were driven out and three times they were driven back. The night fell, the Germans were masters of the situation."

A column of the Turcos told him it must be taken immediately; it would be too late the next morning. The Turcos sprang to the attack with such fury that the Germans, seized by sudden panic, broke and fled. As the result of the loss of the village the enemy was forced to cross back over the Yser."

**ADVANCE OF TURKISH TROOPS IN DIRECTION OF EGYPT IS REPORTED**

Berlin, Nov. 6.—An advance of Turkish troops in the Sinai peninsula in the direction of Egypt is reported in Berlin from Switzerland. The Turkish army operating against Egypt is said to number a quarter of a million men. The news was given officially to the press in Berlin today.

hoped that the sympathy of the people of Edmonton will express itself in at least four or five carloads of food for the Belgians at a later date.

Aside from the collection made with the ponies, the dogs and the contribution boxes, subscriptions to the Belgian relief fund forwarded to the secretary of the board of trade will reach the right spot by the most direct route.

### THE ELEMENTS OUT OF WHICH EXCEPTIONAL ADVANTAGE MAY BE CONSTRUED.

Through the discovery of gas in the Viking well Edmonton is in a position to secure possession of a resource which, properly handled, could be made the means of placing this city in a position of exceptional advantage.

As to the extent of the discovery it is altogether too early to estimate, but this much is certain that the well is one of the biggest in America and that the gas area tapped is undoubtedly very large. Figures of the possible production such as given by Mr. Martin to the Industrial Association—and it must be now admitted that Mr. Martin is indeed a conservative estimator—run the calculation into billions which simply stagger the imagination but which guarantee that in its 250,000 acre reserve the city has a gas supply sufficient for all the requirements of this community for the next century at least.

With the presence of gas thus demonstrated, the question presents itself of how best to handle it in order to secure the greatest good for Edmonton. Mr. Martin's advice is to proceed with the development of the field at once by sinking four more wells. This advice is good, and should be acted upon by the city council at once making provision for payment for the well already sunk, thus bringing the entire production completely into the hands of the city and making the city sole owner and beneficiary of the gas upon the 250,000 acre reserve. It is to be hoped that the council will momentarily forget its recriminations long enough to attend to this now and that the members of the council who have so bitterly opposed the gas proposition will have the good grace to waive their animosity towards those members who have favored it for just sufficient time at least to permit the vote to go through for the immediate development of the field.

Granting that this will be done and that the arrangements will be completed for development during the coming winter, the next consideration should be the basis upon which the gas will be handled in order that Edmonton as a city may derive the complete advantage which this discovery offers.

As it stands now Edmonton is, in a sense, in competition with all other prairie cities. In the struggle for industrial supremacy—upon which alone the growth of population depends—it must be admitted that there has been, up to date, no great overshadowing advantage which any one western city could offer as an industrial center which the other cities could not very nearly duplicate. Winnipeg, Regina, Calgary, Saskatoon and Edmonton have each claimed to be most desirable locations, but all enjoy terminal rates and about the same character of railway facilities, taxes do not vary very much, and water, light and power rates are a trifle lower in some cities than in others, but nowhere sufficiently so to offset any compensating advantage which the neighboring city may offer.

Presuming that the other items will remain approximately the same, it is in the matter of power, light, heat and fuel for manufacturing that Edmonton should now be able to offer an advantage which will place her attractions in such a situation of supremacy as would practically make it suicidal for any manufacturer in any line that can be carried on here to locate anywhere else. Edmonton now has unlimited gas. The gas itself costs absolutely nothing. With a well down to the strata, the gas forces itself from the ground under a pressure of 600 pounds to the square inch, sufficient head to drive it to the city limits and still leave hundreds of pounds to spare. The cost is in the wells, in the pipe-lines from the field to the city—approximately 70 miles—and in the system of laterals for distribution. The cost of the first item is estimated by competent authority at \$12,000 a mile, or a total of about a million. The cost of the second item, if installation is upon a local improvement basis, is estimated at \$25 a lot. After the system has been installed and the annual capital charge is met the cost of distribution—if the large item of bookkeeping, metre reading and collection could be largely eliminated—is practically negligible, some experts placing it as low as 1/2 cent per thousand feet. The Calgary gas company, there is good reason to believe, is handling its entire operation at a cost not to exceed 3 cents per thousand feet and of this quite possibly 2 cents, or even 2 1/2 cents per thousand is for clerical expense. At any rate it is quite certain that the clerical expense constitutes the heaviest item of cost of operation.

With this situation it seems quite within the bounds of the possible that the city of Edmonton, did it choose to place the gas upon a basis of an absolute public utility, could install the plant which would bring the gas to the city at a cost which it is scarcely conceivable could exceed one mill on the general tax rate (one million capitalizes at about one-half a mill) and could place it at the disposal of those who wanted to use it at a cost which it seems quite as unlikely could exceed one mill in the local improvement rates for the laying of the laterals and for operation.

This would mean not a bonus to a few favored manufacturers, with the average ratepayer or user to pay the cost, but gas as an absolute public utility, open to the common use of all just as the public library and the public schools are free to public use; to householders for fuel and light, to manufacturers for heat, light, power and fuel.

If the estimate of the costs is anywhere nearly approximately correct, the possibilities of the situation are worthy of very careful investigation. Certainly gas as a public service would make Edmonton's situation unique among the cities of America and would constitute a boon to the manufacturers already established here and an invitation to others to come such as no other city on the continent possibly could duplicate. This much is at least plain that in the present situation of the world's affairs only those cities which can offer exceptional advantages need expect the increase in population and in industrialism which will make for rapid growth and progress. Edmonton alone at the present moment, through the discovery of gas, has the necessary elements out of which an exceptional advantage may be construed.

## TWO REBELLIONS IN SOUTH AFRICA NOW CRUSHED

London, Nov. 4.—A Cape Town despatch to the Reuters Telegram company says that the rebellion of General Christiaan Frederik Beyers in the western Transvaal and the mutiny of Lt.-Col. Solomon Gerhardus Maritz in northern Cape Town now appear to be completely crushed.

Official reports, according to the despatch, indicate that something resembling an armistice is being observed. The rebels are still collected at certain points in the northern Free State, but all these points are marked by adequate loyal contingents. "It is clear," the despatch continues, "that the rebels are ill-equipped and have practically no organization."

### TURKISH ARMIES ARE ROUTED BY THOSE OF CZAR

Petrograd, Nov. 5.—The following official communication has been received from the Russian staff: "In Caucasus one of our columns suddenly attacked the enemy near Ardahan (15 miles south of Tiflis, near the boundary of Turkish Armenia). The Turks fled, abandoning their wounded."

"Having dislodged the Turks from the village of Is (about 60 miles west of Ardahan) over the line into Turkish Armenia) we took a great quantity of food. After a violent combat our troops seized Khosrau (in Turkish Armenia) 16 miles south of Is and Col. Karadere, with 100 Cossacks, attacked the trenches of the enemy and saved the Turkish infantry."

"One of our columns, having passed through difficult road for a distance of 32 miles in 24 hours, encountered the Turks at Mysoune and Dyadin (about 30 miles west of Bayandir) which is the capital of Sanjak of Bayandir. We dispersed a large body of Kurds and occupied Dyadin, where we took munitions of war and many prisoners. On November 3 we occupied Bayandir where we routed the Turkish troops who retreated steadily."

Encystitis oil will remove grease stains from any kind of material without injuring it. Apply a little of the oil with a clean piece of flannel, and rub the material gently until the stains disappear.

### In Thousands of Homes

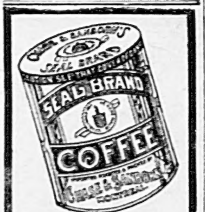

early and certain relief is found for the ailments to which all are subject—ailments due to defective or irregular action of the stomach, liver, kidneys or bowels—in the most famous family remedy, the world has ever known.

## BEECHAM'S PILLS

are justly famous because they have proved to be reliable as cures or preventives of the sufferings, dull feelings and danger due to indigestion or biliousness.  CHASE & SANBORN MONTREAL

## IF BILIOUS, SICK OR CONSTIPATED TAKE CASCARETS

No headache, bad cold, sour stomach or costive bowels by morning.

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel right, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleansing up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets — they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clear; stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never grip or sicken.

To clean lamp glasses hold them over a jug of boiling water until well steamed, then polish with a dry duster. It is far less trouble than washing and the glasses very rarely break.

## GERMAN SQUADRON ALWAYS INFORMED

Well Provided With Wireless Communication. Says Valparaiso, Unlike British

### WAS A GALLANT CREW While in Sinking Condition, Attempted to Ram One of Teuton Vessels.

London, Nov. 6.—The London Times, under date of Valparaiso, prints the report of Admiral Von Sipe regarding the fight between British and German cruisers off the Chilean coast Sunday night, which report, the despatch says, was made to the Chilean authorities. No other news of the fight was available up to date, according to the despatch and there was no news of the Glasgow, Good Hope or Orlando.

The Times despatch says it is believed all of the Monmouth's crew were lost and it also relates that the German officers testify to the great gallantry of the crew of the Monmouth which, while in a sinking condition, attempted to ram one of the German vessels.

The universal opinion in Valparaiso is that the German squadron was always well provided with wireless information while the contrary was the case with the British squadron.

## STOMACH RELIEF! NO INDIGESTION, GAS, SOURNESS—PAPE'S DIAPEPSIN

Time it! In five minutes your upset stomach will feel fine.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you must not injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief, its harmlessness; its certain unailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles have made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and turns and forms gas, causes headaches, flatulency and nausea; irritation of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach, all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

### URGES THAT KID-GLOVED WARFARE BE STOPPED BY ALLIES, TO SHORTEN WAR

London, Nov. 6.—The Petrograd correspondent of the London Standard says:

An agitation is on foot here for the adoption of stronger measures to prevent Germany getting practically all the supplies she requires in spite of the British blockade. Newspapers express the opinion that it is time for the allies to drop kid glove war on the seas and to let a little more as Germany would if she ruled the water.

Not a day passes, it is alleged, without fresh cargoes for Germany being shipped in Danish, Swedish and Norwegian bottoms, and although these ships all sail from a neutral port and

have as their destinations equally neutral ports, it would be easy enough to establish the contraband nature of their traffic, if only the allies would use their minds to be fooled no longer.

It is added that diplomatic intervention is far too platonic in such cases which involves a prolongation of the war perhaps for years. The allies are no longer justified in confining themselves to protests. A few vigorous examples are all that would be necessary to put an end to the scandal.

Austria-Hungary last year imported products valued at \$73,518,574.

## Back to the Land

The agricultural tide is on the turn even now. The war is responsible for this great back to the land movement, and it's a safe predicament that Alberta will experience in the spring the greatest land rush the province has ever seen. Farmers are assured big prices for many years on cattle, grain and produce to supply an ever-increasing demand.

The Result Will Be a Great Reaction in Farm Lands, and Increased Values.

There never was a greater opportunity to buy Farm Lands at rock bottom prices than now. The company intend to secure all they can get if the price is right, and will assist the incoming tide of settlers to locate on their holdings, which will be all improved and close to railroad facilities, thereby assuring the settler a crop the first year and a market for all he can raise.

The Alberta Farm and Colonization Co., Ltd., will assist the settler not only by selling him an Improved Farm for a small cash payment and the balance in crop payments, but will start him off right with first grade cattle and a team of horses from the company's own Stock Farm.

### THE CRYING NEED OF ALBERTA IS—GET PEOPLE ON THE LAND!

The Alberta Farm and Colonization Co., Ltd., are working with that end in view. Help Your Province by Investing in this Company. You could not put your capital to a better cause or be assured of a safer investment.

### WRITE FOR PROSPECTUS AT ONCE

Phone, Wire or Mail for Reservations as only a limited amount of stock will be offered the public of Alberta

## STUDENTS IN GRAND SHAPE FOR CLASH WITH CALGARY BENGALS

Varsity Squad Indulged in Strenuous Workout Yesterday Afternoon and Showed Their Class—Team Shows Well in the Mud and Heavy Going—Green and Gold Supporters Will Be On Hand in Full Force—Many Rooters Coming from Calgary.

The Varsity rugby squad was put through their last hard practice on Thursday afternoon at Diamond park and went through the grueling workout in true championship form. The men are all in the "pink" according to trainer Jack Buchanan, and are ought to know. The team was out at full strength and fore through the muddy surface in grand style. Selkirk had some very nice plays on account of the heavy or slippery going and the leather sphere was deftly handled by all hands.

Varsity coaches, Messrs. Edwards, Powis and McGuire, were on the side lines and kept the pace of the workout at top speed. Today a light work in the Varsity gym will be enjoyed and a chalk talk by the coaches. When the students face the Calgary Tigers Saturday afternoon they will be in tip top form and in the best of spirits. Varsity supporters are

arranging to turn out in full force and several hundred wearers of the green and gold will decorate the side lines. New songs are being practiced and old ones are being rehearsed with a view to making Diamond park sound like the days of old. The game will commence at 2 o'clock sharp and the winners will be handled by Rev. Bob Pearson and Percy Hardisty. The Calgary team will arrive in the city Saturday morning.

A wire received this morning from Calgary stated that they were agreed to the officials decided upon. The Varsity team will in all probability be the same as lined up against the Civics last Saturday and the names and weights of the players are as follows:

Parsons, 165; Perraton, 165; Wilson, 140; Parker, 145; Biscoff, 165; Bell, 160; Riley, 150; Larson, 150; Treble, 150; Fitzgerald, 160; Ames, 180; Parr, 175; James, 150 and Aylen, 130.

### HUDSON'S BAY AND RAMSEYS WILL HAVE SNOOKER TOURNAMENT

There were no games played in the King Edward English billiard tournament last evening but two games are scheduled for tonight. At 8 p.m. Kay meets Mitchell and at 9 p.m. Inwood and Sullivan clash. These games should prove the best to date in the tournament as all four players are among the leading exponents of English billiards in the city.

Saturday afternoon at 2:30 p.m. Heathcote plays McGarry, while in the evening two games are scheduled, Kay vs. McGarry and Kidwell vs. Inwood. Two good men, Smith and Hetherford entered the tournament yesterday.

The snooker pool experts at Ramsey's and the Hudson's bay are eager to show their skill and daring, and to settle a long-standing rivalry between the two big stores, a tournament will be started at the King Edward parlors on Monday evening. Gold medals will be awarded to the leading players on each team.

### KING AND INWOOD WERE WINNERS AT EMPIRE TOURNAMENT

In the Empire straight rail tournament King defeated Springer by a margin of 15 points, the score being 150 to 125. King was in particularly good form, tearing off runs of 18 and 16.

The game was witnessed by a large crowd. Tonight's game is King vs. Dr. Young.

Last night's scores: King, 150; high runs, 18-16; Springer, 125; high runs, 18-15. Inwood defeated Andrews in the Empire billiard tournament at the Empire billiard hall last evening by a score of 200 to 206. This was the closest game yet in the competition for the Kirkland challenge cup.

To night's game in this tournament brings together Graham and Broad.

Last night's scores: Inwood, 200; high runs, 17-15-14. Andrews, 206; high runs, 24-18-12.

Last year Prince exported \$5,439,250 worth of porcelain ware.

## JOHNNY DUNDEE PICKS WELSH TO BEAT CHAS. WHITE

Trickery and Experience of English Champion Should Baffle Chicagoan

Chicago, Nov. 6.—Johnny Dundee, who got into town yesterday from San Francisco to meet his nemesis, Rocky Monteth, is not picking any winner in that Charlie White-Fred White mixup at Milwaukee next Monday night, but is inclined to think White will have his hands full. Johnny has a lot of respect for the veteran British champion, who shaded him not many months ago at New Orleans. Dundee has fought White twice, so has a pretty fair line on t he pair. White handed the Italian a trouncing at Syracuse, and Johnny was credited with a slight edge over Charles once night south.

Dundee has a sort of hunch that the trickery and experience of the English champion will be too much for White to overcome in a short fight, and will therefore off-set the Chicagoan's punching ability. Johnny knows that White can't hit, and he knows that White can deliver the sleep producer. Still he has such a high opinion of the Welsh deft that he thinks that White can hit him with full force with that left hook, let alone a right cross, which he says is better than the hook. "They are both great batters," said Dundee last night. "Modesty forbids me saying that I can beat them. But you just put in the paper that I'll be tickled to death to meet either one of them, and you will be printing the oldest truth. I am hoping I can get a whack at the winner."

"I have never boxed around Chicago, and I have hopes of making this city my home some day. For that reason I would like to get acquainted with this way. I believe the best means to that end would be to fight in this vicinity. I am right sure the promoters get the right sort of a match."

"Yes, I think Welsh's trickery and experience give him something of an edge over White in the coming fight. But Charlie has plenty of class, you know, and looks the wallop. Then you never can tell about a boxing match. It ought to be a stunning battle."

"I forgot to mention that I really deserved the decision over Willie Hoppe in our four-round fight in San Francisco the other night. But it was only four rounds and I suppose the referee did the proper thing in calling it a draw."

### WILLIE HOPPE AND MELBOURNE INMAN PLAY CLOUSE MATCH

Winipeg, Nov. 6.—Willie Hoppe touched his most brilliant form of the whole international billiard series today when he outplayed Melbourne Inman, English billiard champion, 1,600 to 125. In the two sessions of the billiard game played, Hoppe reproduced his real championship form, his display culminating in a magnificent run of 213, his highest against Inman, his previous best being 172. Inman only aggregated 36 in the evening play, Hoppe averaging 55.5 during this session, the Englishman being a spectator much of the time.

Hoppe, by virtue of a 148 run in the afternoon had an average of 417 per cent, his average on the day's play being as high as 68. The standing to date gives Hoppe the long lead, of 2227 and 1714, and he requires to make 48 at the two sessions at the English came tomorrow to win the match. Inman has an excellent chance of handing the match.

### OFFICIALS CHOSEN FOR RUGBY GAME

The officials for Saturday's rugby game between the Calgary Tigers and the Edmonton Eskimos will be: Ref., "Hok"; Pearson, of Calgary and Percy Hardisty, of Edmonton. Both are well known officials and capable and a better selection would be hard to make. Both are old and experienced. The game thoroughly, Mr. Pearson formerly played with Toronto university and Mr. Hardisty with Toronto re-nomats. Saturday's game starts at 3 o'clock sharp.

## DESPITE STRESS AND STRANGENCY "VERY BUSY"

Classes are More Largely Attended Than Ever—Want 300 New Members.

That the Y. M. C. A. is enjoying a busy season is evident upon entering the association building on May street on any evening. It seems that the present season, with all its stress and stringency, is witnessing a larger attendance than ever of young men enjoying the many privileges offered by the Y. M. C. A. Twenty-four gymnasium classes are conducted each week. These are arranged to meet the needs of all, from office boy to manager, and at times to suit the various groups. The young men's class on Monday, Wednesday and Friday evenings has the largest attendance and it is a well-attended class.

This class work from the spectators' gallery which is always open to the public. Crowded meetings are the rule at the debating society and another organization for beginners is under way. Swimming and life saving are being taught free to members by an expert, and the social rooms of an evening. To the musically inclined the newly organized orchestra gives clubs offer an attraction and increased interest in the seven table classes that constitute the life study program for the fall season.

During the first half of November ten different membership committees are seeking to add 300 to the roll. They believe that, especially at the present time, every business man should support the association by becoming a member, and that every young man and boy ought to join because of the helpful and enjoyable privileges which can be secured at such small costs. The various groups of brothers are meeting with a good response and it is more than likely that the 300 members require will be quickly added.

### "JACK" SHERIDAN, FAMOUS UMPIRE DIES SUDDENLY

San Jose, Calif., Nov. 6.—"Jack" Sheridan dean of the umpiring staff of the American league of baseball clubs died here from a sudden attack of heart failure following a three weeks' illness. He was 42 years old. His illness followed a sunstroke received in the course of a game in August.

More than 30 years of Sheridan's life were devoted to the national pastime, first as a player, then as an arbiter. Illness which incapacitated him during the last fortnight of the 1914 season kept him from rounding out his last year of almost continuous service. He made the round the world trip with the Comiskey tourists last winter.

Langford Will Fight. Los Angeles, Nov. 4.—Sam Langford, of Boston, and Sam McWhorter, of Newcastle, Pa., heavyweights, were matched today for twenty rounds here Nov. 19.

## AMERICAN LEAGUE TIRED OF THE WAR WITH FEDERALS

At Annual Meeting Went on record of Being Ready for Peace at Any Time

Chicago, Nov. 6.—Club owners of the American league in their annual meeting here yesterday put themselves on record in favor of peace but except for expressing their sentiments individually and informally they brought no nearer the end of the baseball war. Tumors that overtures had been made to the Federal league were denied. The only discussion by the meeting of the Federal situation lasted but half an hour. In that time every one of the eight clubs, through its representative, declared for peace, but it was the general opinion that peace can be reached only by absorption of the Federal league, not through its recognition. "There is no room for a second league," they agreed, and the elimination of the competing clubs in Chicago, St. Louis and Brooklyn must be included in any terms of truce. As for the New York club, Frank Farrell, its president, declared emphatically to the newspaper men that the Yankees are not for sale.

Except that some of the clubs had as many as forty men on their pay-rolls and could not dispose of them because of the fear of the Federal league there was no reason found to warrant recognition of the Federals, the club owners said. Plans for distribution of extra players among the minor leagues in a way to assure their not being signed by the Federals was left to President Johnson and the minor league owners of the Omaha club.

Manager Mack of the Philadelphia club, refused to make a formal charge against Manager Jennings, of Detroit, who was accused of giving out the news

## CALGARY TIGERS' STRONG LINEUP: SNOW STORM STOPS GAME IN SOUTH

Edmonton Civics Game With Calgary High School, Cancelled—Tigers Believe They Have Team Good Enough to Beat Varsity on Saturday—Calgary Team Arrive Early Saturday Morning.

Calgary, Alta., Nov. 6.—The Tigers, who will invade Edmonton on Saturday, will leave Friday night for the north, accompanied by the usual crowd of yellow and black ribboned supporters. The jungle warriors had their final indoor workout tonight, the time being chiefly given over to signal practice. Coach Gleason has introduced some new plays that are expected to stand the varsity players on their heads.

The following team has been selected to represent the Tigers: Flying wing, Hickey (captain), Half backs—McCall, Wark and Oerman. Quarter back—"Squib" Ross. Scrimmage—Watt, Woods and Harrison. Outside wings—Fitzgerald and Smith.

Inside wings—Haggett and Priestley. This city was visited today by one of the heaviest snowstorms in a long time, and so abundant is the "beastly" that it has put a stopper on all outdoor sports. The executive of the Calgary High School rugby club held a meeting this afternoon, and after

some discussion it was decided to cancel the game scheduled for Saturday afternoon with the Edmonton Civics. The condition of the grounds makes rugby out of the question, and even if the game were played not enough spectators would brave the rigor of the elements to pay for the advertising, much less a heavy guarantee to the visiting club. The Civics were notified last night that the game was postponed.

Intercollegiate Football. The University of Alberta association football team left last evening for Saskatoon, where they will meet the University of Saskatchewan team on Saturday in the annual Inter-Varsity fixture. The locals will not be at full strength as several of their best men are also members of the rugby squad, and on account of the important game here on Saturday, Tigers vs. Varsity, were unable to make the trip to Saskatoon.

# AGRICULTURAL AND TECHNICAL SCHOOL WILL RECEIVE AID

Special Grants to Boards Pro-  
vided for to Assist in  
the Work.

Hon. J. H. Boyle, minister of education, has announced that the order-in-council providing for special provincial aid for technical education was passed on Monday, November 2. The details regarding the schedule of grants and regulations are now being forwarded to the school boards and teachers throughout the province.

The plan adopted provides for special grants (a) to school boards, to assist them in providing the necessary equipment and in maintaining the classes, and (b) to the teachers to encourage them to qualify for the special instruction and give satisfactory service therein after having qualified.

"Placing" the instruction in rural and village districts, while assistance is given for instruction in manual training and household science, special emphasis is placed on instruction in agriculture and gardening. In town districts the encouragement of instruction in household science and manual training receives special attention, while that in agriculture and its related sciences is also provided for. In the cities the plan provides for the greatest proportion of aid being given toward the development of night class instruction and pre-vocational, vocational and technical day classes. Substantial aid is given also for the encouragement of night class instruction in the smaller communities, particularly in the industrial and mining centers.

Department's Approval Asked In all cases the local organization, the accommodation and equipment provided, the courses of instruction and the instructors must be approved by the department of education before being recognized for grant purposes. For the more advanced work qualified specialists with teachers' certificates from accredited institutions will receive due recognition upon application to the department of education. For the elementary phases of the work in the various subjects the teachers, not already qualified, may secure the necessary training at the summer school for teachers.

To Be Under School Boards To insure that unity of purpose and effort necessary to secure the fullest and most economical use of all accommodation, equipment and specialized service available, the courses and classes offered by these grants are to form an integral part of the school system under the control of the school board and under the general direction and supervision of the superintendent of schools in those school districts where such an official is employed by the board and in all other cases under the direction of a principal to be designated as the supervising principal of the schools of the district.

Benefits Are Dated Back In order that the night class work for this winter may receive full benefit in the way of provincial aid, the schedule of grants in so far as it pertains to night class instruction is to be deemed to have been in force on and after October 1, 1914. The remainder of the schedule becomes operative on and after January 1, 1915.

Guilty of Procuring A. W. Richards appeared before Judge Taylor in the supreme criminal court on Friday morning.

Richards was sent up for trial two months ago and the case arose out of some circumstances at a Nanaimo avenue rooming house where Richards and Frank Kelly were living.

Sometimes if a thing is worth doing well it is worth hiring a man who knows how to do it.

Children Cry  
FOR FLETCHER'S  
CASTORIA

# EDMONTON IN BRIEF

The manager of the Empire theatre invites all who are interested in the management to attend in a body on Monday next at 10 o'clock to see the special feature pictures, "Canada's Contribution to the Empire." The pictures comprise four reels of film and show the utilization of troops throughout Canada and at Valcartier. The scouts who have uniforms are requested to wear them and will meet at the theatre at 10 o'clock.

Probably the brightest feature of the present crisis is the way the members of the various provincial and municipal institutions in Edmonton are rising to the occasion so far as subscriptions for the relief of the needy are concerned. The latest donors to the patriotic fund are Joseph John Blue, secretary of the organization instituted to look after this work are the members of the staff of the Alberta university. He is in receipt of a check, which he states will be forthcoming monthly, of \$384.40. The university being a provincial organization this amount will be divided between the north and south of the province. Mr. Blue also reports he has received the sum of \$404.40 from the Strathcona hospital staff which is the monthly contribution to the Edmonton relief fund.

The school board has made all arrangements, as far as financial matters are concerned, for building the Westmount school, and it will be rushed to completion.

According to A. L. Swale, secretary of the Northern Transportation company, good progress is being made on the new government telegraph line north, and it is expected that it will be in operation as far as Calgary by January.

A hole in a plank sidewalk on the south side was caused by the fall of Charles M. Johnson on Wednesday evening, whereby he broke his ankle.

A must-meeting is being made on the conveying of his majesty's mail in the north in the immediate future to take place between the City and Mirror Landing the E.D. and H.C. will carry mail four times weekly and at the present time the service is being selected for the conveying of same to the railway from the various towns.

INTEREST SHOWN IN MEETINGS WHERE NEW CHARTER IS DISCUSSED A driving snow storm by no means dampened the interest in the Electric Commission Government Charter Committee last evening, when two public meetings were held at the hall of the new instrument of government upon which the people of Edmonton will vote on December 14. The first meeting was held at Riverview where the speakers presenting the charter under the auspices of the committee were Mr. McAlister, J. McNamara, ex-Alderman James East, ex-Alderman James Gowan and C. S. Stewart, T. E. Brown and Alderman J. A. Clarke also spoke. Another meeting was held at the Donald Ross school house where the speakers were presented by W. H. Todd, Prof. W. H. Alexander, P. D. McGrath and W. M. Johnson. Alderman McNamara appeared at this meeting, and discussed many phases of the charter and municipal government in general.

Tonight, the electric commission charter committee is holding a meeting in the Norwood hotel school.

INTERNED NORTH GERMAN LLOYD STEAMER SHIFTON FROM MAINE TO BOSTON

Bar Harbor, Maine, Nov. 4.—The three months' stay here of the interned North German Lloyd steamer Kron Prinzessin Cecilie ended today, when conveyed by the United States destroyers Terry and Lamson, she started for Boston. The weather was fair, with a moderate breeze, and the steamer was met by a destroyer a short distance ahead, departed at 4 a.m. It was expected that the steamer would reach Boston late in the afternoon.

The change in port of internment was made, it was considered, because the anchorage here would be dangerous during the winter storms. Although it was intended to steam within the three mile limit so far as possible no interference was anticipated, as the government at war with Germany had given official assurance that none of their war vessels would molest the steamer on her voyage to Boston.

COOPERATION OF ARMIES OF RUSSIA EXPECTED TO BE COMPLETED SHORTLY

Petrograd, Nov. 6.—A new phase is now developing in the campaign against Germany and Austria. Russia's utmost wings in east Prussia and west Galicia are now both forging forward to co-operate with the center advance on Posen. Silesia's great accession of fresh troops will be engaged in new operations and the numerical strength of Russian disposition may be gathered from the army that is growing with the continuous arrivals of mobilization centers. There are indications that operations now are beginning to develop which may drastically shorten the war.

Cholera in Przemysl. Venice, via Paris, Nov. 6.—Official reports given out in Vienna regarding the cholera admit that in Galicia there are 216 cases, of which 126 are in Przemysl. These figures are by far the highest yet admitted.

ALBERTA RANCHER SENDS CONGRATULATIONS CARLOAD OF HORSES

Cochrane, Alta., Nov. 6.—Probably the largest and most unostentatious individual gift to the British government from this province for the war is that of a carload of horses from George Creighton the well known veteran horse rancher of the Bar C ranch in this district.

# STOCK REDUCTION SALE OF FURS

BEGINS SATURDAY —  
CONTINUES ONE WEEK  
ENDING NOV. 14th

## A Sale of GREAT IMPORTANCE to Women Planning the Purchase of FURS of Any Kind

ONE of the most noteworthy sales of the season introduced for the sole purpose of reducing the stock to regulation proportions in accordance with the policy the Store has maintained during the past quarter of a century.

OPTIMISTIC BUYING, months ago, when the Fur Market was the lowest it has been for years, and the U.N. FAVORABLE WEATHER CONDITIONS, to fur buying, of the past few weeks, are largely responsible for our having to resort to cut-price methods just when cold blustery winter is apt to swoon down upon us any day. THE SALE INCLUDES every solitary piece of fur in the Store. Furs of quality and rare beauty, from the frozen shores of the northland and from the silent wastes of Siberia, imported and designed by the cleverest designers of fur fashions on the continent, insuring an excellence of construction; also, that's not to be bettered no matter what price you've been accustomed to paying for your furs.

Make selection early before the choicest pieces of peltry have been picked out.

## Women's Fur Coats Possessing Style and Quality at Generous Reductions
